Amendment to Salzburg Airport Charges 2027

Dear Sir/Madam!

We have applied for the amendment of the Airport Charges for 2027 to the Federal Ministry for Innovation, Mobility and Infrastructure (as Austrian Civil Aviation Authority) and we would like to inform you as follows:

Airport Charges will probably be changed as follows from **1 January 2027**:

Passenger, Landside Infrastructure, Security Charge	+ 1.66 %
Landing, Parking and Airside Infrastructure Charge	+ 3.11 %
PRM Charge	€ 0.97PAX
Security Charge	€ 16.45/PAX

Incentive Program: For those airlines that base an aircraft at SZG, a dedicated loyalty programme is to be introduced from **1 January 2027**, which will enable them to develop their flight schedules accordingly. This takes account of their year-round operational presence, which contributes significantly to the development of traffic, capacity and the airport as a location. The aim is to achieve a sustainable increase in service provision and load factors, as well as to strengthen the airlines' commitment to SZG.

Noise Reduction Charge: From **1 January 2027**, the noise reduction charge will be supplemented by a seasonal bonus scheme. To promote a balanced volume of air traffic throughout the year, an increased noise-related discount of 30 %, instead of 20 %, will be granted to aircraft in noise category SZG 1 during the summer months when traffic is lighter (1 April to 31 October). This is intended to create additional incentives for the use of particularly low-noise aircraft, even outside peak traffic times.

Handling Charges (excl. Single Services, De-Icing-Liquids and CUPPS; will be announced at a later date) will be increased by **3.40 %** from **1 January 2027**.

Hangar Charges will be increased by **5.00 %** from **1 January 2027**.

For further information please refer to the appendix for the expected new prices from **1 January 2027**, subject to change.

We kindly ask for your understanding for the increase, which is unfortunately unavoidable due to rising personnel costs, energy, raw materials and inflation.

Kind regards

SALZBURG AIRPORT W.A. MOZART
